We are close to war
Everything we know is
Open after all the change
We all see the door
Hoping it'll open
Something in a major way

And you are, you are, you are
Looking at a brand new day

We are in the war
Even though we know it
Everyone remains in play
We all wish for more
Only way to go is
Try to give it all away

And you are, you are, you are
Looking at a brand new day

The sun won't let up
We've all upset our show
The wait gets better, though
And we hope you are
And you are, you are, you are, you are, you are

O-Oh, say we're all together
Pray that things get better soon
Stay, we all suffer the cold
Still, I know we are
And you are, you are, you are, you are, you are

O-Oh, say we're all together
Pray that things get better soon
Stay, we all suffer the cold
Still, I know we are
And you are, you are, you are, you are, you are

O-Oh
