She's just always falling
So I know she'll break the bone
No one will follow
So she's falling alone
Carry it all for the broken doll
Gonna take it all and throw it all away, hey

Chorus:

Caught in the sun
Face in a gun
Oh Jenny, turn away
Weather the worst
One for the hearse
Oh Jenny, feel the pain

She's just always calling
When she's lost the way to go
Oh, feeling nothing
Time to finish the show
End it all for the broken doll
Gonna take it all and throw it all away, hey

Chorus

All the color gone away
Only sorrow, hard to say
Knowing love is hard to keep
She keeps hearing, 'Face the deep'

Chorus x 2
