Troublemen by Electric Guest  
She was young once  
Girl of the bohemian kind  
In the cold bright dawn  
We watched her grow

Wisdom begun  
Season when the river was high  
On the grey stone lawn I walked alone

Me and my heart following the shadow she made  
Like a dull sky day I chased the sun  
Back at the start I was still in love with the way  
It's a long way from what's become

She's got it bad for me  
She's got it bad for me  
The only game she plays now turn the other way

She's got it bad for me  
She's got it bad for me  
The only game she played she played

Newly grown-up  
Folded up the colors she wore  
See the all new girl  
Rehearsed and well

Filling my cup  
Playing at the edge of the shore  
See the way she moves  
I broke the spell

She's got it bad for me  
She's got it bad for me  
The only game plays now turn the other way

She's got it bad for me  
She's got it bad for me  
The only game she played she played

Oh no

Try to fix it before you break it  
Then it's gone  
Oh no I go on I go on

She's got it bad for me  
She's got it bad for me  
The only game she played now turn the other way

She's got it bad for me  
She's got it bad for me  
The only game she played she played

Troubleman  
You wished it all away  
Gun in hand  
You found a path today  
And I know nothing about

Troubleman  
You're faithful long ago  
Foreign land  
The sea was made of stone  
And I know nothing about

He's gotten bad for me  
He's gotten bad for me  
The only game he played now turn the other way

He's gotten bad for me  
He's gotten bad for me  
The only game he played he played

Troubleman  
We used to shade the dead  
Ship unmanned  
The rain was just ahead  
And I know nothing about

Where troubleman  
Is just an empty name

Oh no  
Try to fix it before you break it  
Then it's gone  
Oh no  
You go on  
We go on
