Into the fire we've fallen.
I'm doing things I've never done before.
Deep in the dark I hold on.
Blood is rushing and I want more.
Take ne higher
Baby with a smoke-less fire
I Know that I'll never learn so let it burn
Where you lead me I'll follow
If you ask me to I'll say yes
Can't you see I've fallen
I've fallen into a beautiful mess
Such a beautiful mess (X2)
All through the night we're touching
Fingers roam as we make it up
Down on the street they hear us
Now I can't seem to ever get enough
Take ne higher
Baby with a smoke-less fire
I Know that I'll never learn so let it burn
Where you lead me I'll follow
If you ask me to I'll say yes
Can't you see I've fallen
I've fallen into a beautiful mess
Caught in a rollercoaster
Caught in a train wreck
But I don't wanna get off no I don't wanna get off
Caught in a hurricane _____
But I don't wanna get off no I don't wanna get off

Where you lead me I'll follow
If you ask me to I'll say yes
Can't you see I've fallen
I've fallen into a beautiful mess (such a beautiful mess)
I've fallen into a beautiful mess (such a beautiful mess)
I've fallen into a beautiful mess.
