With a finger in every single dirty pie,
its only natural that theyâ€™d want to hide,
behind a glossy image of a company true and fair,
but your tissue paper facade is starting to tear.

Float the company to rae in even more cash,
having a government backing helps to avoid a
backlash,
in cases anyone finds out where the money goes,
but weâ€™ve got you sussed and that masks just for
show.

Money grabbers, vivisectors, weapon makers, land
stealers,
evictor of native, jungle killers, support apartheid -
British Profiteers.
