We've always been friends from the start  
but i hope that we could go up higher  
soar above the clouds and maybe  
touch the moon. we could make it so far i know  
that in my heart I'll always have a spot for you  
I hope that I'm in your heart too.

(Chorus)

Because I love the way you make me smile  
smile, its like I'm floating on air  
oh oh oh oh ohhhh  
even though we don't see each other anymore  
I still know that your here  
right next to me, because i love the way you make me  
smile

smile smile smile yeah,  
oh make me smile smile smile  
oh oh oh  
you don't bother to text me back  
even though we had a great past  
i remember waking up  
and not waiting to see you

(Chorus)

Oh Ben Oh Ben why you see  
... how much you meant to me
