Talking Seriously made us unhappy allways  
Then We Found that simple life makes more  
I fold many things this way, but happy at less  
Tempted still not a big deal i wanna go out

I wanna go out, wanna go out, wanna go out  
I wanna go out, wanna go out, want to fly

Away so far, Away something we should all  
mountains that hug me at air  
movements of my soul rising it high

That Place ill go frecuently  
Turn so bad and also cheap  
If i could find my ways to keep good at me  
I wouldn't mind living at here

I wanna go out wanna go out wanna go out  
I wanna go out wanna go out want to fly

Away so far away something we should all  
Mountains that hug me at air  
Movements of my soul rising it high
