Ivyan is so strong  
She bought a life and she wants to carve with a knife  
She got her friend but still got no plan  
Stay at home wishing upon her teeny angel  
Her vision is bright cause she fight for her right  
And she wanna prove her dream will come true

She say she could float above in the sky  
Just like the crow in the grey sky  
The butterfly  
She say she could skip up above in the sky  
N just like the hawk in the blue sky  
The dragonfly  
Angels in god's sky alien in dark skies  
Or maybe you're high  
Baby only in cartoon  
Maybe only in cartoon

Ivyan  
She paid the risk  
Cause and she wanna look for her very last kiss  
Now she got her own bands  
But she still no fan name  
Trap at home  
Wishing upon her teenage angels  
Her vision is tight  
She's been reading all night  
And she wanna prove make her dream a come true

O she wanna play in her own world  
Just like the dwarfs in the little land  
The wizard's invention  
O she wanna play in her own world  
Just like the gnomes in their tiny land  
The nelwyn's creation  
Nelwyns in homeland gremlins in home land  
O don't you understand
