Silly me to think
If we could just hold on tight
Our love would make it through
The cold and darkened night
I was wrong
We never saw the morning light
Now you're gone
And I'm alone
And I'm losing sight

No excuses
See i knew it
Disillusioned
But the truth is
I was losing
And you proved it
Packed your bags
And now you're moving

Thats another love lost
And my hopes running low
Feel consumed and lost in gloom
It's not me not to believe

Cos I won't be alone
No matter what they say
Break me down
But I won't
Won't let it fade away
The passion burning deep inside
The greatest gift is love and
I refuse to let it die
Here in the fight of my life

Been growing ever since
And now it's worse than ever
Talked myself off the ledge
And right now never means never
But I'm lying to myself
To keep from losing my mind
Truth is, with a broken heart,
Every thought and feeling is justified

No excuses
See I knew it
Disillusioned
But the truth is
I was losing
And you proved it
Packed your bags
And now you're moving

That's another love lost
And my hopes running low
Feel consumed and lost in gloom
It's not me not to believe

Cos I won't be alone
No matter what they say
Break me down
But I won't
Won't let it fade away
The passion burning deep inside
The greatest gift is love and
I refuse to let it die
Here in the fight of my life

I'm fighting, fighting
In the fight of my life
I'm fighting, fighting
In the fight of my life
I'm fighting, fighting
In the fight of my life
I'm fighting, fighting
In the fight of my life

Cos I won't be alone
No matter what they say
Break me down
But I won't
Won't let it fade away
The passion burning deep inside
The greatest gift is love and
I refuse to let it die
Here in the fight of my life.
