uh, uh, uh,  
i wanna be free, i want you to be  
feel me when i see in the morning  
so here i go, i can't take it slow,  
cause i wanna be free now!  
you're all that i want, you've opened my heart  
i'm letting you in to be mine forever  
the higher i go, i can't take it slow,  
cause you're all that i want now!

chorus: (x2)  
the sun in my eyes, the wind in my hair  
your kiss on my lips, your hand in my hand  
body to body, soul to soul  
you'll take me back to the summer love!

i wanna be free, i want you to be  
feel me when i see in the morning  
so here i go, i can't take it slow,  
cause i wanna be free now!  
you're all that i want, you've opened my heart  
i'm letting you in to be mine forever  
the higher i go, i can't take it slow,  
cause you're all that i want now!

chorus: (x2)  
the sun in my eyes, the wind in my hair  
your kiss on my lips, your hand in my hand  
body to body, soul to soul  
you'll take me back to the summer love!

and i need you, i need you tonight  
i guess the fire is burning my heart!  
and i need you, i need you tonight  
i guess the fire is burning my heart!  
and i need you, i need you tonight  
i guess the fire is burning my heart!
