I want to wake up on the beach  
Wake up with you by my side  
We can smell the air with our blankets tight  
You just tell me where  
And I can take you there  
Straight Bro, Livin Like Billionaires

On the beach  
Wake up -- wave away the stars  
I wanna watch the water trickle down your arm  
You just tell me where  
And I can take you there  
With the top down, hands up, wind in your hair

Chorus:  
Ohhooo  
You're my Lucy in the Sky  
There's diamonds in your eyes  
Weee  
We can be one love  
We can be one light  
Just for One Day

I said weee  
We could be one heart  
We only got one life  
So let's get away  
Just for One Day

Verse 2:  
Baby this could be a dream  
The kind that make you smile all night  
I'm the kinda girl, that makes your dreams real light  
So tell me where you are  
You know I'll send a car  
A jet set, from your house, straight to the stars

Like a dream  
Colors of the best sunset  
Color California, cause the Coast is West  
So tell me where you at

In 20 seconds flat  
We'll be top down, hands up, never look back

Chorus:  
Ohhooo  
You're my Lucy in the Sky  
There's diamonds in your eyes  
Weee  
We can be one love  
We can be one light  
Just for One Day

I said weee  
We could be one heart  
We only got one life  
So let's get away  
Just for One Day

Bridge:  
Say aaaooo  
Everybody with me, say aaaooo  
If you're down with the 3

One day we'll be underneath the stars  
We'll be drinkin' champagne eatin' caviar  
One day with you in the deep blue sea  
It be me and you it be you and me

Chorus:  
Weee  
We can be one love  
We can be one light  
Just for One Day

I said weee  
We could be one heart  
We only got one life  
So let's get away  
Just for One Day
