Intro:

Here I am
Playing a song just for a while
And baby this is for you

Don't you know
You're the reason why
All my dreams come true

Refrain1:
Everywhere I go
Can't really forget
All the things about you

Chorus:
I Love you
Three words that I'm keeping in my heart
Just for you
Forever, had it right from the start
'Promise you, I'll never break your heart in two
'Cause I love you

I can still remember
All days and night that passed me by
I am all alone and I feel so sad
With the teardrops in my eyes

Refrain2:
I could not ask for more
Now that I've found you
I will not be alone anymore

Repeat Chorus (2x):
