everytime i see you walking in the street i allways say  
to myself are thinking of me never thourght i could fall  
in love so easily but its gonna take a proper man to  
please me

and do you know how i feel deep inside  
cant you see it in my eyes  
but maybe you deserve better  
but i think me and you should get together  
we could probly chat over dinner  
maybe i could win you over

as time goes by i think of you more every day and night  
you are the man of my dreams but do you even notice  
me

and do you know how i feel deep inside  
cant you see it in my eyes  
but maybe you deserve better  
but i think me and you should get together  
we could probly chat over dinner  
maybe i could win you over

lets get together ill make it right me and you just hold  
me tight through any weather ill put up a fight me and  
you your my starlight

and do you know how i feel deep inside  
cant you see it in my eyes  
but maybe you deserve better  
but i think me and you should get together  
we could probly chat over dinner  
maybe i could win you over
