Devotion, Illusion, Sensation, Possession of love
Can't see clearly this may just be enough
Delusion, Intrusion, Pollution, Confusion of thoughts
Nothing is real, nothing is easy, it's simply too hard

Heavily breathing I'm trying to make you stop
Now you possess every beat of my heart
Trying to reach you but you are simply too far
I'm chasing around someone who's already gone

And I, don't see you anymore
In places we used to meet
For coffee

Now I, don't want to love you anymore
This love is driving me crazy
Out of my mind

Temptation, Emotion, Deception, Attraction to you
You are the one, invading my soul, making me blue
Hope to get out of here sane and alive
I feel as if I'm left in a desert to die

Heavily breathing I'm trying to make you stop
By now you possess every beat of my heart
Trying to reach you but you are simply too far
I'm chasing around someone who's already gone

And I, don't see you anymore
In places we used to meet
For coffee

Now I, don't want to love you anymore
This love is driving me crazy
Out of my mind
