Remember when I got wrapped in your curls
like you get wrapped in the legs of many girls;
weâ€™re from too different worlds.
And after drowning in a bottle of wine
I just pretended you were mine,
cause boy youâ€™re so so fine.
My lungs are black my teeth are blue,
Iâ€™m way too easy and so are you.

Everyone is kissing your feet
there's nothing you need to hide
it's a take in the scene
everyone is kissing your feet
then like other many you have in knees
and now weâ€™re sleeping in the dirty sheets.
Girl, now the sun is dead
you all so gently and sleaze his head
and I guess I knew what you meant.
Cause you were glowing the whole night
going after you turn off the lights blowing
while you ripped off my tights.

My lungs are black my teeth are blue
Iâ€™m way too easy and so are you.
Everyone is kissing your feet
there's nothing you need to hide
it's a take in the scene
everyone is kissing your feet
then like other many you have in knees
and now weâ€™re sleeping in the dirty sheets.

That was that, yeah that was it it.
and I try to forget the things we did,
Iâ€™m finally forced to admit youâ€™re just a prick.
Cause youâ€™re running around with other girls
too,
so if thereâ€™s a thing I shouldn't do
itâ€™s wasting my breath talking to you.
My lungs are black my teeth are blue
Iâ€™m way too easy and so are you.
