Give up, the whole damn thing's over  
I ain't turning shoulders yet  
As the evening hits your eyes  
Spill the sunshine  
Oh, you're fading out  
We're everybody's moon  
Hanging on the edge of nothing

If there's a hell for lovers  
And that's where you're gonna be  
I can be hell's lover boy  
You can stand right on my feet  
At top of our love  
Stand at the top of our love

I don't believe in being lonely  
Old electric lady lands  
Playing in the stars around me  
Drunk in the arms of your gorgeous memory  
Lured in by the lovely way  
You keep showing up in mystery

If there's a hell for lovers  
And that's where you're gonna be  
I can be hell's lover boy  
You can stand right on my feet  
At top of our love  
Stand at the top of our love  
Stand at the top of our love

I keep rolling down through the world to find you  
Asking all the fakes and the awfully confused  
Why they're smiling big when I go about you  
They know I'm crazy enough, I'm desperate enough for  
you  
For you

And I go and you go where it's easy to blur, it's easy to  
blur out

If there's a hell for lovers  
And that's where you're gonna be

I can be hell's lover boy  
You can stand right on my feet  
At top of our love (I can be hell's lover boy)  
Stand at the top of our love (I can be hell's lover boy)  
Stand at the top of our love

Give up the whole damn thing's over  
Give up the whole damn thing's over  
Give up the whole damn thing's over  
Give up the whole damn thing's over  
Give up the whole damn thing's over
