Never say that nothing ever came from a mouse
anyway
Crawled into my house, took my cat away
Don't let your brain tell your mind that it must say
That nothing ever came from a mouse anyway
Anyway
Never say that nothing ever came from a gnat anyway
Flew into my ear and then he done flown away
Always causing aggravation so can't you ever say
That nothing ever came from a gnat anyway
Anyway, anyway, anyway
Something always comes from the music anyway
Came into my life and it stole me blues away
Oh, my stereo is my best friend every day
And this music is my blood, it's my blood
It always comes and goes, but it never floods
Something always comes, something always goes
Something always comes from the music
Something always comes from the music anyway
Anyway, anyway, anyway
Don't ya feel that this music flows
Don't ya feel like it's life
Well i do, well i certainly do
I can't live without this music in my blood
Well it gets me up when i'm feeling down
And i cannot sleep when this music is around
I live to move
And i know that there's something there filling me up,
this music
A wise man once said
A wise man once said when he told me
One good thing about music
When it hits you, you feel no pain
Something always comes and it always goes
It will be there to the end after everything is gone
The music
Ah, it will, to the end
Something always comes, something always goes
Something always comes and it goes
Something always comes from the music anyway
Anyway, anyway, anyway
