Oh girl  
Girl you're real pretty  
And a guy like me is getting pretty late  
There's no mistaking  
The vows you've been taking  
But a girl like you should never have to wait

And I've been searching  
Searching for a new doll  
But nothing they can say can comfort me  
If you let me come back  
I'll make you a promise  
But a promise ain't no good if it don't keep

Yeah it goes around and around and around and  
around  
The rocket man and a wall of sound  
Turn it up and make it loud  
Big easy

The grass is much greener  
The ring on the finger  
It barely seems to keep the cats away  
But when you get older  
The kittens get colder  
And everybody hates themselves some days

Yeah it goes around and around and around and  
around  
The rocket man and a wall of sound  
Turn it up and make it loud  
Big easy

It goes around and around and around and around  
The rocket man and a wall of sound  
Turn it up and make it loud  
Big easy

And the shadows in the light of day  
Are never what you might suppose  
Reality's a wrecking ball that

Smashes everything you know  
Yeah yeah  
And it goes  
Here it goes

Around and around and around and around  
The rocket man and a wall of sound  
Turn it up and make it loud  
Big easy

It goes around and around and around and around  
The rocket man and a wall of sound  
Turn it up and make it loud  
Big easy

Yeah it goes around and around and around and  
around  
The rocket man and a wall of sound  
Turn it up and make it loud  
Big easy

Yeah it goes around and around and around and  
around  
The rocket man and a wall of sound  
Turn it up and make it loud  
Big easy

It goes around and around and around and around  
The rocket man and a wall of sound  
Turn it up and make it loud  
Big easy
