Papa don't you cry anymore  
I am on your side  
I am growing, and growing some more  
I am on your side

Tell me stories, tell me stories  
I wanna know all about ya  
Tell me stories, tell me stories  
I wanna know all about ya

Fathers laughing, around the bed  
One love is possible  
I hope you hear me right now in your head  
I love your possible

Tell me stories, tell me stories  
I wanna know all about you  
Tell me stories, tell me some stories  
I wanna know all about ya

When I'm down on my knees  
You picked me up  
When I wasn't lonely  
You picked me up

When I needed everything  
You picked me up  
When I'm on my knees  
You picked me up

I want you to know, I'm there for you  
I want you to know, I'm there for you  
I want you to know, I'm there for you  
I want you to know, I'm there for you to

Tell me some stories, tell me more stories  
I wanna know all about you  
Tell me stories, tell me some stories  
I wanna know all about you
