well i woke up an uncle, but i went to bed a fool  
oh my ruby red you lay down next to me and i fell for  
you

oh you came into my day on a morning just so bliss  
oh my ruby red, you knocked me down  
but i look up yours and your little baby kiss

but i spent my days just looking for happiness  
oh i waited so long my ruby red to come in this world  
and i thought that the telephone was never gonna ring  
oh they brought you to my life, oh my little ruby red my  
bed

oh it seems life is such a blessing  
well i was without it for so long  
oh my brother, you promised me everything  
when you told me that ruby red was coming along  
so i waited, oh i waited, for nine months at a time  
and that day the telephone rang i nearly lost my mind  
oh my spring breeze, oh she told me that ruby was on  
the way  
and i must say when i woke up today, heard you're in  
my world  
i love my ruby red

and i woke up an uncle, i went a fool
