Cops in the bedroom forming a question
My misdirection I don't know
It's such a nice badge, pen and a note pad
Sorry about that I don't know

Cut all the crystals cock all the pistols
Malevolent evidence aurora borealis

Wait a minute cattle prod, way to put it
Way to put the blinkers on
Where to put the blinkers

Cops in the ceiling shapes were revealing
Dodecahedrons I don't know
Cut all the crystals sock all the pistols
Malevolent evidence aurora borealis

Wait a minute cattle prod, way to put it
Way to put the blinkers on
Where to lose the blinkers

It's my right to be defiantly a world away
Enlighten me am I not worthy

Paranoia, cops and lawyers
Leave me down here

Wait a minute cattle prod, way to put it
Way to put the blinkers on
Where to lose the blinkers

It's my right to be defiantly a world away
Enlighten me am I not worthy

Wait a minute...
