"Med Song"

Well I used to seek
to see the spare
oh show me
what I couldn't be
well I found the net
to try to test you over it
to try to test myself

you do rest
as much of me as you could had
I wish I hold your hand
nevertheless gave birth like a lioness
to cops of sparlet (?)

ref
go slow slow slow
slow slow slow slow

well I hear you breath
say your spear (?)
watch over me
what I can not be

It's not for show
it is just the most
I can't outgrow
before I go

ref
go slow slow slow
slow slow slow slow

go slow slow slow
(slow slow slow slow)
