

## **Ergo** **"Turn Back"**

Visit "[Turn Back](#)" on [MotoLyrics.com](https://MotoLyrics.com)

from what I see, we're already dead  
and you do believe it friend  
you do believe it friend

- from the moment you despise reality  
you only have the right to shut your mouth  
close your eyes, turn back, dig a hole and all  
turn back, turn back, turn back... -

you've drawn yourself being already dead  
you're overwhelmed by money  
you've drawn ourselves being already dead  
and starving, starving

no matter how much you can pray...

- from the moment you despise reality  
you only have the right to shut your mouth  
close your eyes, turn back, dig a hole and all  
turn back, turn back, turn back... -

now i'm here with you  
(not inside your head)

from what I see, we're already dead  
and you do believe it friend  
you do believe it friend
