when you're awake- you're awake on this pretty day
can't you see that i'm ready all the way to go
yeah to go .. on this pretty day

with a record in my bag i just wanna play
play with you- play with me- play with everyone

i take off my clothes tonight i just wanna make love
play with you on the ground in this wooden universe

with a record in my bag i just wana play
play with you- play with me- play with everyone

darling please come closer, just start breathing
?"and you to hold me white
when you gotta get"?
i can't stop dreaming until you're by my side

i see unicorns with stems of roses in their mouths
and all and everything is beautiful
yes we are beautiful
so beautiful
beautiful

i see unicorns with stems of roses in their mouths
and all and everything is beautiful
so beautiful
you're beautiful
x2

i see unicorns with stems of roses in their mouths
and you- and me- we're beautiful
you're beautiful
so beautiful

darling please come closer, just start breathing
?"and you to hold me white
when you gotta get"?
i can't stop dreaming until you're by my side
