Looks like Hell from here  
This too shall pass  
I know it's hard to tell  
This too shall pass

There's hope a comin'  
Hold on tight  
Don't give up  
It'll be alright

When it seems all your faith is gone  
This too shall pass  
When everything just feels wrong  
This too shall pass

There's hope a comin'  
Hold on tight  
Don't give up  
It'll be alright

For this too shall pass  
The dark times will end  
Your bruises will mend  
The Cavalry is just around the bend  
So hold on tight  
With all your might  
For this too shall pass

I know sometimes you wonder  
How will I make it through this next breath  
How do I recover  
When every moment brings a little death

But this too shall pass  
The dark times will end  
Your bruises will mend  
The Cavalry is just around the bend  
So hold on tight  
With all your might  
For this too shall pass
