"How We Grow Old"

Visit "[How We Grow Old](#)" on MotoLyrics.com

You're testing the water but you're already mine
Will it be hot or will you be fine?
How deep are we going? You never can tell...
Times up now you're swimming and you're caught in
the swell

Is this how we grow old? Is this how we grow old?
Dig up the strength to break from the mold
Tell me we're going home...

Turning the corner... Oh what will I find?
Will I still feel you there by my side
Lets draw a picture of our hands held tight
No you cant make it alone all on your own facing the
rising tide

Tell me Is this how we grow old? Is this how we grow
old?
Dig up the strength to break from the mold
Tell me we're going home...

What you will find, honey, is all in your mind
Come on and take me by your side...

Is this how we grow old? Is this how we grow old?
So dig up the strength to break from the mold...
Tell me we're going home. Just tell me we're going
home
