I was driving along the street  
The one where we used to meet  
We had each other  
I would stay up all night and dream of us the day  
weâ€™d live together

So how could you say â€œI can replace youâ€  
â€œI won't hesitate to goâ€?

Twenty-five years from now  
Girl I couldnâ€™t see much how to love you better  
So when I see you walk on by  
Girl you gonna make me cry when I spend the night  
alone

How could you say I can replace you  
I won't hesitate to go  
You say Iâ€™m failing you nowâ€  
â€œSomeoneâ€™s taken your place, Youâ€™re in  
outer space  
Things are changing, I move at my own pace.â€

How could you say â€œI can replace you  
I won't hesitate to goâ€?  
You say Iâ€™m failing you nowâ€  
â€œSomeoneâ€™s taken your place, Youâ€™re in  
outer space  
Things are changing, I move at my own pace.â€
