The worst stays worst, but the better is forever  
Pullin something clever ya try to flip the lever  
You know you only live once forever is like never  
Holding up the world on your shoulders like a feather  
Trying to get by but it's still stormy weather  
Today we're like never but tomorrow were together  
Can't make up your mind and I'm kinda getting sick of it  
Coming out the back with your rhymes I'm just spitting it  
I. May say hateful things n I don't mean most of it  
My anger gets the best of me and that's the truth of it  
All the fighting lately I don't think it's worth a cent of it  
You know I still love you and that's as clear as its gonna get  
And before you go there's just one thing I gotta let you know  
I promise I still love you and I'll never ever let you go  
I just hope that you can realize it one day, maybe we can be together, and I could say

The worst stays worst but the better is forever  
Every one but me can see what's better  
The world can see her breaking my heart.  
So why waste the time when we're breaking apart  
The worst stays worst but the better is forever  
Girl you deserve someone so much better  
So take these words but don't dwell on them  
Keep ya head up and keep on runnin

Ya back in the day it was all fine and dandy  
Everybody new are relationship was candy  
Every person saw us reminiscing, can't be dissin,  
On the count of not seeing, err one but you is missin  
You know that's true, I used to call you baby blue  
But the only thing you got me feelin is me sorta regretting you  
And on that note there's one thing I gotta say to you  
all I tried to do for you was get through to you  
Unfortunately all you did was hold me down  
All I did was make you smile when you had a frown  
I guess that wasn't good enofe of me, to do

Girl i don't think you have even the slitest clue of what  
you put me through  
And if you even care enofe to pull it through  
Or the hospitality to apalogize for it too  
I just hope that you can realize it some day, maybe  
you'll find someone better,  
And I can say

Chorus

You thought lde always be here  
Never to think I would disappear  
Think about it, is it clear  
Now it's gone, in the bag, gotta go make a tag  
Can't help myself but notice it,  
Just gotta go with it, take the hit, run and split  
I hate break your heart, just couldn't handle it  
promises were broken, and we gotta go and run and  
split  
this may concern you hope you hear  
Let it sink in, dont come back, its the end of it you know  
it  
I'm leaving now and i know You'll get over it but  
hopefully  
Just keep on living but be honest with it  
Did you really think I would put up with you  
You must be crazy if you even had a clue  
the past is behind us and you know the ending  
Wishing you e best and a better sending  
I just hope you can relive it one day, and maybe youll  
live a better life  
And I could say.

Chorus
