I'm every star that's in your sky  
Every glimmer shining through your eyes  
The darkest night I'll be your guide  
Just to give you peace of mind

Oh I used to get nowhere to stand  
But I finally found a place to land

Rainbow through the rain  
Laughter through all these pains  
You're like the blood through all my veins

I'd like to say I'll love you night and day  
Forever by your side I'll stay  
I'll never turn away

Your every wish is my command  
You're my perfect plan  
And I'll be loving you the best I can  
Cos' I'm your faithful man

Cos' I'm your faithful man
