Angels and stars
Here them on the radio
Got them on the stereo

Reaching too far
Listen in the radical
Now we need a miracle

Look to the skies
Diamonds in the starlight
Written in the dark night
Oh Lord

The truth will arise
Listen and it just feels right
Careful with the spotlight
Angels and stars

Angels and stars
Here them on the radio
Got them on the stereo
Angels and stars

Reaching too far
Listen in the radical
Now we need, now we need a miracle yeah
