I found sometimes I stand waiting for the eyes to slow
the hurt
I made songs for hours
Then hollow words that all they looked the dirt
I still feel the waves of you
Chilling wakes that whisper
Still feel the way I do
I still keep the change for you
That grace full iron lace
Who I stilt had open with you
I still walk the path with you
Out with roads and broken
still feeling like I do
I still have a picture too
For you and me, for everything I ever did to you
After all that weâ€™ve been trough
I will make it up to you, I promise too
And after all thatâ€™s been said and done could just a
part of me that canâ€™t let go
I still wave the flag for you
Against the wind and racing
Still sail in search of you
I canâ€™t let go of me and you
Painting words retracing every line I wrote for you
I still know the truth of you
Crystal clear and spoken
Still wear a cross for you
I still treat the needle through
Saving every stich I ever letting me of you
After all that weâ€™ve been trough
I will make it up to you, I promise too
And after all thatâ€™s been said and done could just a
part of me that canâ€™t let go
I found sometimes I stand waiting for the eyes to slow
the hurt
I made songs for hours
Then hollow words that all they looked the dirt
I made lists of rhymes in solid turns that all they made
me worse
I inspired inside
and watch
obey the sing

the fail
the learn
After all that weâ€™ve been through
I will make it up to you,
I will make it up, make it up
And after all thatâ€™s been said and done could just a
part of me I canâ€™t let go
