We almost you for you lies through your teeth and body
I look at you with you face Love is like a fake f air-tales
make beautiful and love and dearly I want you badly
for you a is like lie and wrong and freedom on your
fright and fall in love and lies through and living and
free and kiss and tell and sadly and baffles me that
there are so many people in the world with hate in their
hearts for people they don't even know and now for
you and nearly and been with me or other girl and you
are a liar and fell on your head Hate is something that
has been taught, it is not an innate survival skill that we
need. It is a form of stupidity that penetrates our minds
and will eventually destroy us God and love like lie
through Hate is something that has been taught, it is
not an innate survival skill that we need. It is a form of
stupidity that penetrates our minds and will eventually
destroy us save me now Hate is something that has
been taught, it is not an innate survival skill that we
need. It is a form of stupidity that penetrates our minds
and will eventually destroy us Love and great love is
like lies and wrong Hate is something that has been
taught, it is not an innate survival skill that we need. It is
a form of stupidity that penetrates our minds and will
eventually destroy us make hearts for people they
don't even know. I cannot understand how people
can treat people as less than a human being just
because of their sexual preference, or color of their
skin crawl in me and you and fairly suck love like it and
make me mad kiss other girl like me I want hearts for
people they don't even know. I cannot understand
how people can treat people as less than a human
being just because of their sexual preference, or color
of their skin.
