Fighting the fight of my life  
Working so hard to survive  
Saving what's left of my pride  
Swallowing hard as you go  
Shaking the dirt off my clothes  
Walking into the unknown

Pull it together and dig deep inside  
This is the fight of my life  
No matter how hard the pressure  
I won't run and hide  
This is the fight of my life  
The fight of my life

It's been a struggle each day  
Watching our plans slip away  
But it's the bed that we made  
With every day you're gone  
I wonder what went wrong  
Deep down I'm holding on

Pull it together and dig deep inside  
This is the fight of my life  
No matter how hard the pressure  
I won't run and hide  
This is the fight of my life

I thought that we'd be together  
You said that you'd stay forever

Pull it together and dig deep inside  
This is the fight of my life

Pull it together and dig deep inside  
This is the fight of my life  
No matter how hard the pressure  
I won't run and hide  
This is the fight of my life  
I thought that we'd be together  
The fight of my life
