(From hard times)

All of my life, got this lady on my mind

(To good times)

All of my days, wanna hit it all the time

(She's fine)

Struggle and strife, I was down and locked away

(She's mine)

Thought about it every day

(From hard times)

You know a nigga wanna touch your body

We can keep in touch, have an after party

You know you wanna fuck 'cause you're acting naughty

You see us in the mattress probably

Wanna be involved 'cause the entourage I'm indulged  
in

You say you love my dirty drawers, you're all in

Wanna sleep with the star, be baby moms, eat lobster

See where you're coming from

'Cause hey, that nigga got dick for days

And ain't too many niggas blessed in O's ways I guess

I just get better with old age

'Cause in my hey, puss made me say ?Mayday?

Anyway, today I'm a different human being

I crush 'em, make 'em scream

It's nothing, ain't a thing

Fronting like the dick ain't off the chain

Slicing nigga's [incomprehensible], c'mon

(From hard times)

At the after party we can get naughty, watching your  
body

(To good times)

Get this shit started, coke and Bacardi,

[incomprehensible] juice and gin

And I'm off that ready to roll

(It's high time)

At the after party, it's a private party

What happens at the party, stays at the party

(Blue sky)

Girl go on and party, back up that body into my body,  
girl let's go

(From hard times)

You know I'm somewhere where I can ease my mind be  
On some island Don Ps beside me  
No paparazzi eying that hiney  
But I am right behind she

Wanna bump 'n grind, crying, sayin' I'm all up in that  
side

Bringing down the menstruation cycle  
Girl I lay pipe to the right, pipe to the left  
Pipe all night, a pipe dream, right?

O Trice advice your type

If it ain't him, it's a nigga in my click you like  
If the misses insist on a dick tonight  
We throw assists like Scott Pip and Mike

You blow a kiss on my tip you just might  
Get a whiff of the kid up in your windpipe  
Now see that insight? It excites  
'Cause she's undressing for that sex, right?

(From hard times)

At the after party we can get naughty, watching your  
body

(To good times)

Get this shit started, coke and Bacardi,  
[incomprehensible] juice and gin  
And I'm off that ready to roll

What happens at the party, stays at the party

(Blue sky)

Girl go on and party, back up that body into my body,  
girl let's go

(From hard times)

Take time off my hectic schedule

Just to give you the pleasure you request for  
When I hit your spine that's how you measure O  
Tell your girlfriends you ain't had it like this before

Now your girlfriends all up in the midst of O  
Wanna be mistress, all 'cause a few extra inches  
Blew back your interest, you lack experience  
New jack my crew ran through that for instance

We can fuck from dusk to dawn  
'S no discussion whose nuts you're on  
To me she's such in a rush to cum  
Wanna choke on the dong, like it's a bong

And what is he doing? You're making her moan  
You make her wanna leave that muthafucka she got  
back home  
All O knowing is he keeps hoes going, enjoying O  
Trice's groin

(From hard times)

At the after party we can get naughty, watching your
