I'ma get rich die trying  
I'm gonna get my piece of dough pie  
Cause it's cold out here, it's cold, it's cold

30 below, burner underneath the bubble coat  
A coke in hand that come hope  
Most folks here to mess the holocaust  
But most folks didn't â€¦  
Can't show them the ropes, you gotta wear that loose  
Hang themselves, just to be aware the truth  
Chasing the root of all evil, the fruits of our egos  
Leaving us negros getting in illegal  
That's when the cracks go, from whatever attacks you  
Back against the wall, this ain't what a nigga asked for  
What effects of life, smacking dead in the face  
You serving up Tudy, she tooting on base  
Basically, the paper got me in this race  
My neighbors hate me, saying he's a waste  
See it's not on my mind, not to rely on the grind  
I'ma get rich or die trying

I'ma get rich die trying  
I'm gonna get my piece of dough pie  
Cause it's cold out here, it's cold, it's cold  
I'ma get rich die trying  
I'm gonna get my piece of dough pie  
Cause it's cold out here, it's cold, it's cold

Pushing yayo, the young buck in the game  
Trying to get my 50 cents up and a name  
Moving G units, getting my banks of the use  
â€¦truth is  
Other niggas queers, never flip pigs  
Living through uncles, peers  
Shit I touch, should have been fuck outta here  
Yeah this luck like most us out here  
Steal your grind, never loose hustle  
Paper that it came and went don't let it fuck with you  
You are clutching the gear nigga trust  
Never forget struggle  
That's what a nigga nuts for

Speak for those who came upon dough and lost it  
Now his brain is no more, he lost it  
So he weight the 44, waiting to blaze  
Anybody with a cash flow

I've been trying road for too long  
Digging through empty pockets  
Wondering where it all went, all went  
It's so much cash that passed through these hands  
So much it won't believe cause  
I got nothing to show â€¦  
These trials of life, they only made me stronger  
Cause I've learned  
That's why I gotta keep on and get rich  
Die trying, I'm gonna get my piece of dough pie  
Cause it's cold out here, it's cold, it's cold  
I'ma get rich die trying  
I'm gonna get my piece of dough pie  
Cause it's cold out here, it's cold, it's cold.
