## "Ride Wit Me"

Yeah, O Trice nigga, Dina Rae, rest in peace big Proof  
nigga  
If you gon ride wit me, then ride wit me motha fucka  
don't be switchin it up  
If you gon side wit me, then side wit me nigga hop  
don't be changin it up  
If you gon die wit me, then die wit me when you see  
guns what you gon do run?  
If you gon side wit me, get high wit me, how you gon be  
switchin it up?  
Niggas be fake, got they mommas trace the bitch in  
that man, the snitch in that man  
All sissy peep the switch in that man, shit hit the fan  
and that nigga ran  
He aint got your best interest at hand, on attention they  
stand, your dick in the sand  
You aint real wit it my nigga, quit playin, too much heat  
motha fucka get a fan  
Chances are rollin up in black vans, plans to decease  
any nigga aint fam  
Streets is a beast slit your throat couple grand, same  
niggas say bust a couple 'for you can  
Its so hard determinin hearts of man, but its argu-in  
your heart to heart wit him  
Look him in the eyes and the truth is them, how much  
proof can prove that you don't really now him?  
If you gon ride wit me, then ride wit me motha fucka  
don't be switchin it up  
If you gon side wit me, then side wit me nigga hop  
don't be changin it up  
If you gon die wit me, then die wit me when you see  
guns what you gon do run?  
If you gon side wit me, get high wit me, how you gon be  
switchin it up?  
Bullet in my head, less than a inch from dead, you're  
nobody til you're in a permanent bed  
Ashes in the urn, your turn what was said this shit burn  
layin you nigga to rest  
'Specially if you thorough like Mitchell and Ness,  
courage in that boys chest not typical bitch

I reevaluate who I fuck wit, cause most niggas chicks  
they dig this shit  
Aint gon lay a nigga down they just talkin real loud,  
first the bounce when Sparky come about  
They barkin they aint targetin the problem in the croud  
claimin he you partner that's partial  
If I don't know a nigga from a child, I don't fuck wit, him  
he don't know what my mentality's about  
All the casualties out I was close to, this is O I been  
through it, my nigga Proof  
If you gon ride wit me, then ride wit me motha fucka  
don't be switchin it up  
If you gon side wit me, then side wit me nigga hop  
don't be changin it up  
If you gon die wit me, then die wit me when you see  
guns what you gon do run?  
If you gon side wit me, get high wit me, how you gon be  
switchin it up?  
Shady took a loss, cant cry no mo dog, my nigga in a  
coff' he still the boss that he was  
And talkin to my niggas that's flossin these dubs, make  
sure your squadron is packin heat-as  
Cause even for just a moment niggas soft they beat us  
I hope from our alliance I can tell you how sweet he was  
Niggas get it fucked up when they see the cus, on the  
TV next to E he was sleepin, what?  
Believe he was knee deep up in the mud, another deep  
nigga from the streets tryin to come up  
Proof, to shine hopes on your memories forever  
spoken, long as Obie's able to lay focus  
Imma stay focused til them pearly gates open, for the  
next soldier to pave the way for mo-town  
No matter what they say you're profound, Pioneer of  
Motown music that's what Proof did
