[Intro]

[Hook:EstaBoN]

They say the block hot, so watch cops, I'm already knowin'

They killin' men in timberlands, like it's already snowin'
Summertime chi, but these niggas hearts is frozen
Then they wonder why, all these prisons stayin open

[2nd hook] (Grab yo army fatigues, grab yo army fatigues)

[Verse 1: EstaBoN]

Yo I'm a sharpshooter, I could neva miss ya
But if u miss me, baby I'll still feel ya
My Trojans go to war in foreign threesomes
Til I get to bussin like machine guns
Had to beat it up like I dont need drums
I be vamping all night like I dont need sun
I say fuck a circle, loyalty is shapeless
And don't judge em by the cover, niggas shape shift
They play wild, play foul, play flagrant
So you gotta spray ya weapon like a fragrance
Hit Lo up tell her po up, roll some Doobies soon
Chicago crazy warn a brother about these looney tunes
Families hungry and these mamas want they life back
Funds low, kickin doe's this is chiraq
Criminal minds on the rise in these critical times
Pops missin who's to lead in these pivotal times

[Hook:EstaBoN]

They say the block hot, so watch cops, I'm already knowin'

They killin men in timberlands, like it's already snowin'
Summertime chi, but these niggas hearts is frozen
Then they wonder why, all these prisons stayin open

[2nd hook] (Grab yo army fatigues, grab yo army fatigues)

[Verse 1: EstaBoN]

They sleepin on my city, like its bedtime
Trayvon Martin story? national headlines

People hear about da chi through the grapevine
Chicagorillaz, look at all these apes dyin'
Look at all these hate crimes, our army's dividin
Sounds of em cryin' gettin drowned by all of the sirens
Rollin marijuana, on my way to Adriana's
To scoop a chick, name briana from Louisiana
When I hit the lot niggas start to mean mug
Bet a bullet'll make em numb like a fiends gums
I ain't fighting over dames, man dat shit is lame
I'll just let her gimme brain while I'm switching lanes
Guess they tryna earn stripes like tigers or zebras if
this his bitch now he know about liars and Cheetahs
I treat my drugs like its boss n fire the reefa
And ignore all of these soldiers who try to defeat us

[Hook:EstaBoN]

They say the block hot, so watch cops, I'm already
knowin
They killin men in timberlands, like it's already snowin
Summertime chi, but these niggas hearts is frozen
Then they wonder why, all these prisons stayin open
No handouts, tryna cash out, we need us some money
Pull racks out, she pull her rack out, these hoes be on
dummy
See a fresh nigga, gotta flex the nigga, cuz you out
here on bummy
They cappin boys, and jackin boys, rain sleet or sunny

[2nd hook] (Grab yo army fatigues, grab yo army
fatigues)
