Brain washing a population  
Trapped in a dream  
insidious machines  
Dictate reality  
Evolution placed on hold  
Degeneration overload  
Mentally decayed the brain withers away  
Annihilating a population plagued by ignorance  
the military stands by  
fire fills the sky  
all you had to do was look  
alittle common sense it took  
the signs were plain to see  
future catastrophe  
Think for yourself!  
Defy ignorance  
Think for yourself  
Escape  
Think for yourself  
Defying disgrace  
Think for yourself  
Defy Death

Human control experiments  
self mutilation, shock therapy  
Digital codes hypnotize  
Destroying the mind, Entertaining Disguise  
surgical tools cut through the brain  
young girl cries out in pain  
innocence is no excuse  
data stored for future use.
