This is the hour, now is the time
I sense Your glory, Your presence now
We stand awaiting, anticipating for an
Outpour of Your, life-changing power
I see Your hand, You've touched my heart
Wrapped in Your glory, never to part
Walk all around us, please take a seat
At the throne of the Father, as we
Bow at Your feet, bow at Your feet

Hello God, so glad to see You
Hello God, please stay
Hello God, make yourself comfortable
For your presence just made my day

This is Your dwelling place
I am your dwelling place
Holy God, forever live in me
This is Your dwelling place
I am your dwelling place
Forever God, forever live in me

Lord, here I stand, in awe of You
Your awesome presence, Your love so true
We give You worship, we give You praise as we
Sing hallelujah to Your matchless name
We bless You in this place
