You look beautiful tonight  
Can I touch on something slight  
Something edible and small  
On the tip of my tongue

As we're looking down the line  
And all the years have passed us by  
Will you make another life  
If I'm the first to up and die?

Will you love me when I'm gone?  
Or will you find another goose for your pond?  
Will you love me when I'm gone?  
Or will you find another goose for you pond?

And as we lay down for some sleep  
Do you separate in dreams?  
And if I never wake up  
Would you stay all covered up?

When they put me in the ground  
And they seal me in a case  
Would you leave my pictures up  
Or would you think they're out of place?

If you go on when I'm gone  
How can I know I've done nothing wrong?  
If you go on when I'm gone  
How can I know I've done nothing wrong?

"Till death do us part" doesn't feel long enough  
An eternity awaits  
But it feels too far away  
Thank God I'm not someone else  
Thank God for good health
