Staring at your picture
Hoping it's not over
Winding back those moments
Would they last forever

My skies are turning grey
My heart is gonna rain
Oh won't come back
To feel our love again

Pre Chorus:
It's okay, it's alright
As long as I'll be by your side
It's okay, it's alright
As long as I'll be by your side

Chorus:
Dreams you and I didnt weave
Cause we didn't believe
That we could be together
Dreams you and I didnt weave
Cause we didn't believe
That we could be together

A year passes by
After our goodbye
I see you with him
And ask myself why

You said it'd last forever
But then it all broke down
I turn my back and you walk out

Pre Chorus

Chorus
