English Translation:

With sweet words, you tell me to come out
Because you're bored by yourself
But I know that you want to hug me
And you want to be together today
I know this is booty call
You say you miss me whenever it becomes late at night
Those words melt me again so I take this call

Every time I Feel your love and kiss oh baby
I always think that today is the last time but it's not
that easy
Every time, just as I always did
My heart always grows weak at your phone call

The days we spent together, the days we laughed
together
I forgot them all
Why do you try to shake me up again
And have my phone ringing all night?

Stop the bell rings and I hear a familiar voice
I squint my eyes from being asleep, I get up and once
again I sigh

At this time, I always should be Cinderella
Something's gonna happen because of my lost
glass slipper
Our relationship is like a steep stairway
So, I don't know how to get down

Every time I Feel your love and kiss oh baby
Though you do this, I'm okay, I'm not sad
anymore
Every time, just as I always did
It's been long since I threw away our past love

The days we spent together, the days we laughed
together
I forgot them all
Why do you try to shake me up again
And have my phone ringing all night?

The phone's non-stop ringing changes this whole situation

I hate it so much but what can I do?

How can I forget when you're still so clear in my eyes?

No I can't live without you, please keep taking me and shaking me up

I can't live without you yes i can't live without you

The days we spent together, the days we laughed together

I forgot them all

Why do you try to shake me up again

And have my phone ringing all night?

The days we spent together (the days we spent together all this time)

The days we laughed together (now this long phone call should be ended)

The days we passed by (the long time of our passed days)

The phone doesn't stop ringing all night
