English Translation:

Please leave now, goodbye ooh
You're not the one for me now

When the sun sets, I look for you again and go to you in
the end
Although I know you'll leave when morning comes
even if I hold onto you

I Don't know why I love you so
Although I'm thinking of you right now as well (hello
hello hello)
Although I'll probably suffer for a while

Now leave me, goodbye, don't look for me
anymore
Goodbye, goodbye, ooh ooh, goodbye, goodbye, ooh
ooh
Because we're over

Now even without me, good night, don't ever look
for me again
Goodbye, goodbye, ooh ooh, goodbye, goodbye, ooh
ooh
I'm not yours anymore

What do you want? What do you want to hear? What do
you want me to do?
The reason why you look for me remains as a bigger
scar to me

I hate myself for loving you
Though I'm still crying
Though I still want to look for you

Now leave me, goodbye, don't look for me
anymore
Goodbye, goodbye, ooh ooh, goodbye, goodbye, ooh
ooh
Because we're over

Now even without me, good night, don't ever look
for me again
Goodbye, goodbye, ooh ooh, goodbye, goodbye, ooh
ooh
I'm not yours anymore

I'll forget you little by little, day by day
Because I know I can't hold onto you anyway
Let's say goodbye like this, let's say goodbye
right here
It's over with you now
I want to stop now, I'll let you go

Now leave me, goodbye, goodbye
Now leave me, goodbye, goodbye

Now even without me, good night, don't ever look
for me again
Goodbye, goodbye, ooh ooh, goodbye, goodbye, ooh
ooh
I'm not yours anymore
