Come fool.
Where we create.
Follow me your life.
Set in World demise.
Lots to define.
Follow the bodies there.
Living in the past.
Said so as cold as the wind.
Cut through life.
Blind fool.
We overkill.
Chopped at the throat.
Set in burned in rot away.
Set in burned in killed away.
Burned in life of hell.
Have to survive.
Without fears of grave.
Lives left to die.
Where to? Says the mind.
You're first to die.
Set in burned in rot away.
Set in burned in killed away.
Time hurting make the change.
Time hurting waste away.
Inferior certain display.
Falls, sent to be convincing.
Be strong your alive.
Be strong to see them die.
To see them die.
Come fool we create.
Set in world demise.
