Were here to
Bring the people and the music and the movement all
together now
We see through
Repetitive etiquette and the highly unoriginal
Were here to
Bring the people and the music and the movement all
together now
They will lose
Check it out now, check it out now
This is a necessary change from the grim simple and
plain
Gonna exercise that brain to break the chain pain is a
part of gain
No need to explain
We innovate to generate an intricately interwoven
tapestry
Of musical and ethical epiphanies
The interest is minimal
Im on an awesome mission with an angel
That can take it all the way to where the sun is
Just like a runner loving running
Tryina turn it into a simple symphony
Simple sentiment adrenaline is coming back
Im in the innercity, where i gotta be a superstar
Id rather be a galaxy
But how you see is so dependent on the medicine the
rhetoric
And how at any second you think you could sit on the
brink of this
World is all asleep and i have no apologies
I breathe
Keep my sight on what we ride on
Let bygones be bygones
The migraines don't sidetrack
My final destination nothing rivals predetermination
To exterminate the germination
Of a nation that accepts anything that's thrown in it's
fat face
Cause when there's nothing left
There's no more point to the rat race

We don't waste a minute of the day
Don't be offended what im saying
Trying to send it all way to another stage
A creative alternator rated and greater
The crazy maniac melodies end up all up in your face
wait
Success aint only based on self esteem
It takes a sense to differentiate between
What's yours and someone elses dreams
I felt the screams climbing up my cold spine
Saying nows the time to put in all the energy
To get rid of the enemy... i said it so..

Bring the people and the music and the movement all
together now

We see through
Repetitive etiquette and the highly unoriginal

Were here to
Bring the people and the music and the movement all
together now

They will lose
'cause music aint good if it got style

Sick of the same old thing

Free us and touch what we can't see
Twist that knife and watch him bleed
Lost inside it's way too deep
Someone choke me
Help me breathe

Run from mistakes
Right in my face
Feels like im running in place
