"Self Destructive"

I realize my demise is clearly tied to
The choices that are made today
Think twice and analyze, that path outside
Is leading you the wrong way
Leading me the wrong way

(Chorus)

Why am I self destructive?
My conscience calls me out
I am so self destructive.
My conscience calls me out

Look in and begin to see the trend
This pattern of behaviour
That kills what is right in our lives
Destroying what is sacred

(Chorus)

I need to take control, I need to let it go
Why do I put you through this?
My mind is rendered useless
Will all this end in tragedy?

(Chorus)
