"Make It Through"

Visit "[Make It Through](#)" on MotoLyrics.com

Every day we wake up
And we know just what to do
Every day we set out
And dreams of living we pursue
Like a bird up in the sky
Flying higher than high

(Chorus)

We know this life will go on
That things won't always be this wrong
You realize how much life means to you
You know you're gonna make it
You know you're gonna make it through, oh

Every day we wonder why
Our broken wings won't fly
Every time we let go
It's because we lost control
Like a train without its tracks
Trying hard not to crash

(Chorus)

Every time we close our eyes
It's heaven that we see
Another life is lost
Another soul goes free
You've risen up above

(Chorus)

Gonna make it through, oh
You're gonna make it through
