

Fades Away

"As I Wither Away"

Oh, how I grieve your graven kiss
"In dusk's fading light"
Slowly I wither in my growing loneliness
Like a flower in the summer's dawn
Where is the beauty of your soft, pale skin
As I drown in the shadows of past

Slowly drifting away from you
Screams of anguish in emptiness
As I mourn my loss of life

Oh, how I grieve!

"Watching as the snow falls down"
And the shadows as they dance on the walls
"At last, we're together as one"
My funeral has begun

Alone I have lived, alone I will die
With you my life
Forgotten
Without you
