Once i wake up
And I can't stand all of this scars
My mind is leaving me I should give up
And I'm still here

No One hears me

It hurts
But you don't care
You take this life as a fucking puppet
Now it's broken

You don't belong here

I found my truth in the dark
The consequences are the rest of our time

It's not over

To die with no one else
To live with ever scream
As loud as you can't hide
It's all within your head
Replay your memories
Erase the pain inside
Mend your last mistakes
Let's reset

See my fall and feel relieved
The taste of the floor crushing in my face

This have finished

What I've learned of this
Is that I won' fall into your future traps

It's not over

To die with no one else
To live with ever scream
As loud as you can't hide
It's all within your head

Replay your memories
Erase the pain inside
Mend your last mistakes
Let's reset

To press start again
I will save myself
I am who control this game
