Taking notice of unusual tongues  
Fakes are alone, the fakes are alone

Wearing faces which are known by none  
Villains are alive, the villains are alive

Invite the peace  
And the dark ones show up  
With misery

The blue villains are taking over x4

Break your promise in the new age of puns  
Phonies are around, the phonies are around

Grinning slightly at a man who has died  
Villains are alive, the villains are alive

Invite the peace  
And the dark ones show up  
With misery

The blue villains are taking over x8
